DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 and 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by

Ishibashiet al.

The patent to Ishibashi et al. discloses a speed sensor 1 that is recorded on IC memory card 3 at specific intervals and read by data analyzer 5 when the vehicle is stopped.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 8 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishibashi et al. in view of Abe.

Art Unit:

The patent to Ishibashi et al discloses a recorder as described above, but lacks the data on engine speed, intake air and throttle speed, as taught by Abe, in order to monitor engine performance. It would have been obvious to one having ordinary skill in the art to provide the device of Ishibashi et al. with sensors as taught by Abe in order to monitor engine performance.

5. Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to R. Camby whose telephone number is (703) 308-2088.
